● Image Storage and Retrieval

- Secure storage and easy retrieval of patient images and records, promoting efficient data management
- Remote access to medical images, facilitating telemedicine consultations and collaborations among healthcare providers
- Image quality control and enhancement, ensuring the accuracy and clarity of diagnostic image

● Improved Diagnosis

- Accurately diagnose and monitor medical conditions through the analysis of high-quality medical images
- Faster and more accurate diagnosis, enabling timely treatment decisions and better patient outcomes
- Streamline the workflow in healthcare facilities, reducing the time required for image acquisition, interpretation, and reporting

● AI and Machine Learning Integration

- We harness the power of artificial intelligence (AI) and machine learning (ML) to assist in image analysis, anomaly detection, and pattern recognition. This enables faster and more accurate diagnoses.

- In an increasingly interconnected world, our solution facilitates telemedicine by enabling remote image viewing and consultations, improving access to healthcare for patients in underserved areas.
- Our platform includes powerful analytics tools that assist healthcare professionals in interpreting and analyzing medical images, ultimately leading to more precise diagnoses and treatment plans.

● 3D & 4D Imaging.

- Octalsoft's technology supports three-dimensional (3D) and four-dimensional (4D) imaging, allowing for a more comprehensive view of anatomical structures and dynamic processes within the body.
- Our technology ensures the acquisition of high-quality medical images, enabling healthcare providers to make accurate diagnoses and treatment decisions.

● Speed and Efficiency

- We understand the importance of efficiency in healthcare. Our solution optimizes image acquisition and processing to save valuable time for both healthcare providers and patients.
- Octalsoft's Imaging Technology seamlessly integrates with existing healthcare systems, including electronic health records (EHRs) and picture archiving and communication systems (PACS). This integ.

“Surge ahead to the forefront of innovation in the healthcare industry, with a state-of-the-art medical imaging technology IMAGING solution that empowers healthcare professionals with the tools they need to deliver the highest quality patient care. Octalsoft's IMAGING Solution is a comprehensive and advanced platform designed to revolutionize the way medical images are acquired, processed, and analyzed.

OUR UNIQUE CUSTOMER SUPPORT STRUCTURE

Detailed User Manuals/Guides

One Stop-Hassle Free Support

Detailed user guides & training sheets for every product module

Guided video tutorial sessions to address user queries

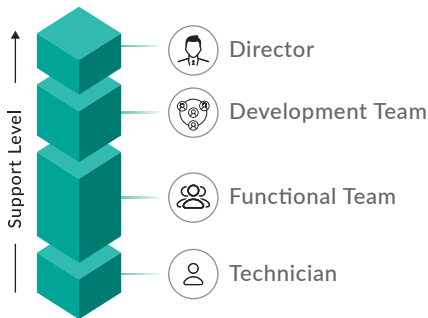

Exhaustive FAQ sheets per product module

24 X 7 Help Desk Support

Our Specialists are Always Available to Resolve Your Queries

- 1 | Customized screen for every user
- 2 | Integrated online & offline support
- 3 | Comprehensive repository of common queries
- 4 | Module embedded chatbot

Meet Dr Mark,

Chief Radiologist

He works as Chief radiologist at a large urban hospital with a focus on cutting-edge medical technology

Dr. Anderson's primary goal is to provide accurate and timely diagnoses for patients. He is constantly seeking ways to enhance the quality and speed of diagnostic imaging, ultimately improving patient outcomes. He is keen on optimizing workflow and reducing administrative tasks to allow his team to focus on patient care and accurate interpretations.

Octalsoft's Medical Imaging Technology System offers advanced imaging capabilities, providing high-quality images and diagnostic tools that help Dr. Anderson make accurate and timely diagnoses. It incorporates cutting-edge technologies like AI-assisted image analysis. This allows Dr. Anderson's team to focus on patient care and accurate interpretation rather than administrative burdens.

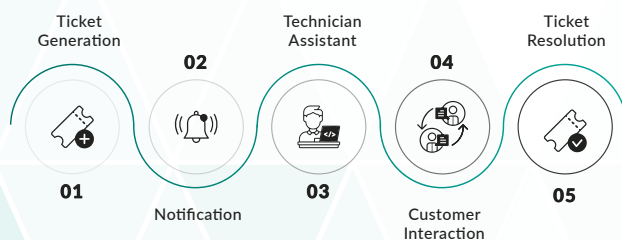

Octalsoft's system prioritizes data security with encryption, access controls, and compliance with healthcare regulations. It ensures that sensitive patient data remains confidential and meets all regulatory requirements. The system seamlessly integrates with the hospital's EMR system, allowing for the efficient exchange of patient data and diagnostic results. This integration enhances overall healthcare delivery and patient care coordination.

Embedded Agile Ticketing Feedback System

Your Query is Our Priority

Issue based (bug, enhancement, data rectification & others) ticket resolution system to address urgent queries on priority

AI Powered Module Specific Chatbot

Personalized Just for You!

- 1 | Specific phone key number allocation to every client
- 2 | Local & international support
- 3 | Integrated online & offline support

WHY CONSIDER OUR eCLINICAL SOLUTION?

Single Unified Mobile-Enabled Platform

End-to-end physically & logically secured cloud solution that effortlessly manages data collection, IP supplies, randomization, study compliance, and documents

Regulatory Compliant

Compliant with all current & highest regulatory guidelines:

Patient Centric

Integrated ePRO & eConsent enables you to conduct patient-centric virtual trials to access diverse population all over the world for smarter and faster trials

Audit Ready Database

End-to-end physically & logically secured cloud solution that effortlessly manages data collection, IP supplies, randomization, study compliance, and documents

Global Mega Trials in Multiple Languages

Experience conducting global trials for all types of studies and trial phases with US FDA Submission | EMA Submission | DCGI Submission

Fast Study Startup

Shortest build times with over 90% of studies deployed within 2-4 weeks. Easy-to-use trial builder allows quicker configuration of eCRFs

Configurable, Customizable, Cost Effective & Easy to Use

The platform can easily integrate with your existing system and can also get designed as per your requirements for increased flexibility, mobility and scalability

Unparalleled Global Customer Support

End-to-end physically & logically secured cloud solution that effortlessly manages data collection, IP supplies, randomization, study compliance, and documents

Our Values

For 15+ years, we've mastered the art of Simplifying Technology so that greater discoveries can happen sooner. As a leading eClinical Solution provider, we've always invested in the right expertise, experts, and technology that keeps us, and you at the forefront of science and medicine. As a trusted tech partner for some of the world's leading clinical trial initiatives, our values of innovation, reliability, and client satisfaction guide everything we do.
